# AGAT Spill Response App

**AGAT Laboratories** proprietary spill application provides clients with one access point to report spills directly to AGAT's spill team. With a quick and easy way to provide notification and get the proper answers required as soon as possible, AGAT is best prepared to respond quickly and effectively.

your emergency needs. A member of our team will then follow up with you as soon as possible to further coordinate any bottle orders or analytical requirements.

**4.** Alternatively, there is also a direct link to our 1-800 Emergency Response Line: **1-855-242-8245**.

**5.** For quick access to documents that may be required in the case of a Spill or Emergency Response, please utilize our "Sampling Documentation" link, which will automatically direct you to our AGAT Website. This provides access to our Chain of Custody forms, Sampling Requirements forms and multiple other useful documents.

## To get your FREE application:

**Step 1:** Go to your App Store on your Smart Phone Device (available for download on both Apple and Android devices).

**Step 2:** Type in "AGAT Spill App" in the search bar.

**Step 3:** Download the AGAT SPILL APP for FREE onto your Smart Device.

## Once inside the App:

1. Click on the Red highlighted "Spill Response" tab.
2. Complete the form with as many details as possible regarding essential information on the spill and specific requirements. Additional information will allow our team to prepare accordingly. Click Submit.
3. Once you have submitted the form with information around your Spill, this document will be sent out to our AGAT SPILL RESPONSE LINE. This email & text line reaches 20 AGAT personnel, simultaneously, with the information you have submitted in the APP, ensuring that multiple AGAT employees are aware of
